## Policy Statement

The Governors and Principal of Sheep Dip Lane Academy accept their responsibility under the Health and Safety (First Aid) regulations 1981 and acknowledge the importance of providing First Aid for employees, children and visitors within the school.

The Governors are committed to the authority's procedure for reporting accidents and recognise their statutory duty to comply with the reporting of Injuries, Diseases and Dangerous Occurrences regulations 1995.

## Statement of First Aid Organisation

The school arrangements for carrying out the policy include nine key principles.

- Places a duty on the Governing body to approve, implement and review the policy
- Place individual duties of all employees
- To report record and where appropriate investigate all accidents
- Records all occasions when first aid is administered to employees, pupils and visitors
- Provide equipment and materials to carry out first aid treatment
- Make arrangements to provide training to employees, maintain a record of that training and review annually
- Establish a procedure for managing accidents in school which require First Aid treatment
- Provide information to employees on the arrangements of First Aid
- Undertake a risk assessment of the first aid requirements of the school

## Arrangements for First Aid

Materials, equipment and facilities

The school will provide materials, equipment and facilities as set out in DfE 'guidance on First Aid for schools'.

The names (and extension numbers if appropriate) of current first aiders and appointed persons emergency aiders are displayed at the following points in the school.

The person responsible for ensuring first aid qualifications are maintained is:	A Parkhurst / M Graham
---	------------------------

The person responsible for ensuring that first aid cover is provided for staff working out of normal school hours is:	G Baker / A Parkhurst
---	-----------------------

## Administration of Medicines

The person responsible for dealing with the administration of medicines in accordance with the Supporting Pupils with Medical Needs in Schools Document*, including keeping records of parental permission, keeping medicines secure, keeping records of administration, and safely disposing of medicines which are no longer required is:	School Office – A Parkhurst
---	-----------------------------

The person responsible for the dealing with the administration of controlled drugs such as ritalin in accordance with the Supporting Pupils with Medical Needs in Schools Document*, including keeping records of parental permission, liaising with the providing pharmacist, keeping medicines secure, keeping records of administration, and safely disposing of medicines which are no longer required is:	School Office – A Parkhurst
--	-----------------------------

The person(s) responsible for undertaking and reviewing the healthcare plans of pupils with medical needs is:	A Parkhurst SENDCO
---	--------------------

#### Asthma Inhalers

The person responsible for the supervision and storage where appropriate of asthma inhalers is:	A Parkhurst
---	-------------

## Foreign objects in the eye

Where any foreign object is in the eye, eye wash will be used to flush the eye to see if the object can be removed. Only the eye wash will be used, no fingers, cloths etc. Parent/carers will be contacted immediately to ask them to come and collect their child and seek medical attention to check if there is any damage to the eye.

## Off-site activities

At least one fir aid kit will be taken on all off site activities, along with individual children's medication such as inhalers, epi-pens, together with any child's individual medical plans. A person who has been trained in first aid will accompany all off site visits.

## Information on First Aid Arrangements

The Principal will inform all employees at the school of the following:

- The arrangements for recording and reporting accidents
- The arrangements for First Aid
- Those employees with qualifications in First Aid
- The location of First Aid kits

All staff will be made aware of the schools first aid policy.

## Accident and Injury Recording

All first aid incidents should be recorded in the first aid record book which is located within the medical room. Wherever possible staff should speak to the parent/carer concerned by the end of the day. Where a child has a serious injury or injury to the head, the staff member should inform a senior leader who will decide whether parents should be contacted immediately. Where a pupil, staff member or visitors has been injured more seriously and parents need to be contacted or an ambulance called then an Incident Form should be completed and handed into the office by the end of the same day.

The Governing body will implement the North Yorkshires Health & Safety Team procedures for reporting:

- All accidents to employees
- All incidents of violence and aggression

The Governing body is aware of its statutory duty under RIDDOR in respect of reporting the following to the Health and Safety executive as it applies to employees:

- An accident that involves an employee being incapacitated from work for more than seven consecutive days
- An accident which requires admittance to hospital for in excess of 24 hours
- Death of an employee
- Major injury such as fracture, amputation, dislocation of shoulder, hip, knee or spine.

For non-employees and pupils an accident will only be reported under RIDDOR:

- Where it is related to work being carried out by an employee or contractor and the accident results in death or major injury
- OR
- It is an accident in school which requires immediate emergency treatment at hospital

For each instance where the Principal considers an accident to a visitor or child is reportable under RIDDOR the advice of the authority will be sought. Where a pupil has an accident it will be reported to the Local Authority. All accidents to non-employees, visitors which result in injury will be reported to the Authority.

## Child accidents involving their head

The Governing body recognise that accidents involving the child's head can be problematic because the injury may not be evident and the effects only become noticeable after period of time.

- Where emergency treatment is not required a 'head bump' letter will be sent home to the child's parents or guardians

- Parents/carers will be contacted if an injury to the head is deemed to require further treatments
- Further information on the treatment of head injuries will be passed to parent/carers for their information

## Transport to hospital or home

The Senior Leader will determine what is a reasonable and sensible action to take in each case:

- Where the injury is an emergency and ambulance will be called following which the parent will be called
- Where hospital treatment is required but it is not an emergency, then the Principal will contact the parents for them to take over responsibility for the child
- If the parents cannot be contacted then the Principal may decide to transport the child to hospital

Where the Principal makes arrangements for transporting a child then the following points will be observed:

- Only staff cars insured to cover such transportation will be used
- No individual member of staff should be alone with a child in a vehicle
- The second member of staff should sit alongside the child in the back of the vehicle to provide supervision and care for the injured party during the journey

## Child accident which results in the child fitting

Where a child starts fitting as a result of an accident and this is not a condition recorded on their personal record, medical advice will be taken by contacting 111 as well as following usual procedures of contacting parents/carers.

If a child continues to fit for more than 2 minutes, 999 emergency services will be contacted irrespective of the condition being known on the child's record.
